EXPERIENCE

Senior Front-end Developer, 02/2022 - Current

Impart - Addis Ababa, Ethiopia

- Leading the design, development, and maintenance of the front-end of web applications, and collaborating with cross-functional teams to ensure that business requirements are met.
- Developing high-quality, reusable, and modular code using HTML, CSS, JavaScript, and other relevant technologies.
- Identifying and addressing technical challenges, including optimizing the performance of web applications and ensuring their compatibility with different devices and browsers.
- Collaborating with designers, product managers, and back-end developers to ensure that the front-end of web applications aligns with the overall architecture and user experience.

Front-end Developer, 05/2020 - 02/2022

RaeyeTech - Addis Ababa, Ethiopia

- Collaborating with designers, back-end developers, and project managers to understand business requirements and translate them into functional and user-friendly web applications.
- Developing, testing, and maintaining the front-end of web applications using HTML, CSS, JavaScript, and other relevant technologies.
- Implementing responsive design to ensure that web applications are optimized for desktop and mobile devices.
- Integrating web applications with back-end systems, APIs, and third-party services.
- Staying up-to-date with the latest front-end technologies and best practices and recommending improvements to existing systems.

SAP ABAP Developer, 01/2019 - 05/2020

Infinite Consulting - Addis Ababa, Ethiopia

- Analyzing business requirements and designing technical solutions to meet those requirements using ABAP programming language.
- Developing and modifying custom programs, reports, and interfaces in SAP to support business processes.
- Collaborating with functional teams to understand business requirements and translate them into technical solutions.
- Participating in testing, including unit, integration, and user acceptance testing, and supporting the implementation of new solutions.
